SECTION 2: Spanish Company Profile

(Please provide a brief summary of the prospective partner company or organization. This summary may address some or all of the points below)

Profile of ideal technology partner	Experience in identifying plastic for new products (in this case gully covers)
Core technological competencies and expertise	Research in new products and expertise in testing new plastic products
Other essential qualifications (e.g.: ownership, track records etc.)	Expertise n Recycling activities (Plastics, e-waste, paper-cardboard)
If you have a list of companies with whom you are in contact or interested in contacting, please provide contact details	no
If you are interested in collaboration: please specify details and other important information you want to share with a potential company	The Gully covers in the roads of Ghana are made from metal and are constantly stolen. For this reason we approached the Municipality of Accra to give them an alternative and replacing the metal gullies wit plastic ones
Interested areas of collaboration	Manufacturing Gully Covers for public places made from plastic
Specific R&D contribution you are seeking/offering	Find a durable and heat-resistant mixture of plastic which can sustain several tons of weight (trucks etc.)
