Products

Drosey

Is an electronic learning library containing thousands of attractive and interesting educational resources in Arabic language covering the basic concepts in Arabic, Mathematics, Social studies and Science subjects.

The Question Bank

Is a bank with more than 33,000 questions in Arabic, Mathematics, Science, Social studies, and English from grade 4 to grade 9.

The Virtual Science Lab

Allows students to conduct a lot of science experiments in an online electronic way, thereby avoiding the challenges of actually doing so in the laboratory, whether there are no chemicals available or ensuring safety standards for the students in the laboratory.

3D human body lab

Providing authentic models of human body organs in laboratories is very expensive, but making such models available electronically in three dimensions saves a significant cost and ensures that each learner can accurately explore the different organs of the human body.

Dlearn Academy

Is an Arabic online platform for Massive Open Online Courses MOOCs. Dlearn aims to provide professional courses for student and graduate education and labour market qualification by raising their professional competence in management and human and professional development.
