Rua Antônio Tombolato, 55  
Campinas, SP 13.070-203  
Brasil

**Contact:** Jose Lavaquial

**Position:** Director

**Telephone:** +55 21 99808-9268 (mobile, WApp)

**Email :** jose.lavaquial@innovatusbrasil.com.br

### Short Company presentation

(R & D guidelines, international activities, etc.)

Innovatus is a private company established in Brazil, that develops industrial microwave applications supported by more than 15 years of experience with the technique. In collaboration with leading companies, research centers in Brazil and abroad and innovation support agencies, we structure developments focused mainly on energy, oil and gas, food, mining, transport, bioeconomy, decarbonization and circular economy, resulting in awards, patents and innovations.

### DESCRIPTION OF ITS TECHNOLOGY AND CAPABILITIES IN R & D

(Products, technologies, applications, services, etc.)

Our current portfolio of 26 deposited or granted patents, focus in industrial applications on large segments in Brazil: energy, oil and gas, food, mining, transport, bioeconomy, decarbonization and circular economy. Innovatus usually develops an application in association with a company that is a leading player in a large segment. The partner company will be the early adopter of the solution, and Innovatus will sell to other companies within that segment.

### PROPOSED COLLABORATIVE PROJECT IN R & D

(As much detail as possible, both in what it offers and what you want in a potential partner)

- **Technology:** energy-efficient solution for mining ore processing of precious metals
- **Other specifications, requirements or comments:** we are searching for a company established in Spain that participates in the mining productive chain
- **PROPOSED COLLABORATIVE PROJECT IN R & D:** scaleup of precious metals mining ore processing

Innovatus' solution: developed, patented, excellent laboratory results.

Spain-Brazil call grants to build a pilot plant: <https://fapesp.br/17365/second-call-for-proposals-2025-26-sao-paulo-spain-cooperation-in-research-and-innovation-projects>

The call requires a company in Spain. **We are searching for a company in Spain that participates in the mining productive chain, particularly ore processing equipment** like crushers, grinders, mills, concentrators, smelters, floaters, refineries, **and services** like engineering, analysis, environment, among others.
