

➡ Agribusiness and dual technologies in the USA ⬅

Opportunities for technological collaboration, market entry and soft-landing

The main objective of the event is to present and promote technological cooperation between Spanish and American entities, market entry and soft-landing in the USA in the sectors of agribusiness and dual technologies.

The event will consist of the participation of different states that will share their vision and comment on the advantages of working with those States.

Subsequently, there will be the opportunity of networking and the possibility of meeting with the representatives of the participating states upon request.
