⁴ **Technical Description of Work**

Do you intend to deliver something, in the form of clearly measurable result(s), which is relevant to the technical goals and demonstrations of the platform (for instance, this could be a separate “workpackage” managed by you)?

- If yes, then please describe this “workpackage”, including
 - a top-level description of results
 - demonstrations to be shown
 - budget for this “workpackage”
 - a potential high-level work breakdown
 - names of potential partners.

More details of proposed demonstrations can be added as an appendix of extra sheets of paper, or as electronic attachments if required.

If you circle NO, it will be assumed that your work will be managed by the Platform Leader or another Associate.
